He intends to resubmit said application for 2026. He also intends to complete the Act 250 amended application, which will require an updated total cost for the Rec Area improvements intended, which includes the Pavilion and a new Kiosk. He would like to submit said application in the Fall. The Clerk stated that, per the Town Attorney, no site visit has yet been made by the Nature Conservancy. Following the discussion, Steve Petrik left the meeting.

Tarbell Property / National Forest Dispute: The Clerk stated that the Town Attorney has been in contact with Mr. Tarbell's attorney and no action by the Town is needed at this time.

Paving will likely be delayed to later in the summer due to weather and other factors. The Foreman indicated that he intends to immediately replace the failed culvert at 227 W. Jamaica Rd. as soon as the new 4-ft. culvert is delivered. He is working with Josh Carvajal the VT ANR River Management Engineer to meet state requirements for this project. That section of W. Jamaica Rd. will need to be closed briefly during installation. Traffic will be detoured to Canedy / Newell Hill Rd. at that time. An additional project is the installation of a membrane on Canedy Rd. bridge, which includes paving over the bridge to the W. Jamaica Rd. intersection. The road will need to be closed briefly for this project. **Truck Replacement:** The Selectmen agreed that the Town will trade in the old truck instead of selling it outright. **Meetinghouse Maintenance:** Chris Liller stated that the meetinghouse stonework has been completed, while stonework on the old schoolhouse is underway.
